I feel **mild**, positive emotions. I am in control, content, calm, and relaxed.

MEET YOUR MOOD METER

The mood meter shows us that everyone has a variety of emotions or feelings. They can range from positive to negative and from low energy to high energy.

Identifying where our feelings are in the meter can help us find ways on how to address them. For example, if we have a negative emotion that is in high energy, we can think of ways to calm down and move away from thinking negatively. We can do this for ourselves or even to help out a friend or a family member.
